THE VOTE OF MEIGS COUNTY. We published, in our last issue, the official vote of Meigs County, as drawn off by a friend, in haste, and had no time to examine it before handing it to the printer. We see that the vote of the "Union" party was wholly omitted. This was an oversight; and for the parpose of enabling every one to take in all the elements in calculating the result of the Presidential election, we now supply the omission. For Attorney General E. E. Hutchinson, the Bell candidate received 66 votes; and W. L. Dougherty. for Member of the Board of Public Works, received the same, 66. The County ticket was very nearly the same, falling a few votes below the State ticket. Sixty-six, then, is the vote given by the Bell party at the late election in this county. The vote, to be sure, is a small one; but if those who gave it honestly believe, as we suppose they do, that they are maintaining an important principle, they ought not to be discouraged. We have voted in a less minority than that in Meigs County, and would do so again, if convinced we were right, and could get no more to go with us. We think

So far as we know, nearly all of these voters cast their votes for Mr. Horton. This was a compliment to the ability and worth of our candidate, as well as an exhibition of independence in the voters. For it is not to be denied that the Bell party, in other sections of the State. effect against the Republican Congressional candidates; and through whose elect several members in Districts in ballot box?
